COSTUME!

POPULAR & VERSATILE!

The **Bucklebear** life-size suit is used by organizations nationwide to help motivate children, parents, and caregivers to be safe. Users include health and safety agencies, educators/advocates, police, EMS, civic organizations, 4-H, Extension Services, individual volunteers and more.

In addition to the dramatic impact this wonderful suit brings to events and special activities, **Bucklebear** offers a wide variety of educational materials and programs covering passenger safety, pedestrian safety, cycling safety/helmet use and environmental issues.

When you make **Bucklebear** part of your team, you get much more than just another "nice costume". You get a comprehensive Injury Prevention Program that has been proven to work!

BUCKLEBEAR is a copyright of Weiner-Seaman Productions, Glendale, CA

FEATURES

The new **Bucklebear** costume offers many features to make it easier, safer and more comfortable to use, as well as ensure a consistent appearance.

q Costume Design

The **Bucklebear** character body suit comes complete with attached feet, a body-shaping "pod" (white foam-filled body suit worn beneath the costume), and a light-weight molded plastic head. The **Bucklebear** suit always has the same shape no matter who is wearing it.

q Better Cooling

Two fans & improved thermal design allows air to follow a natural path up and out the top of the molded head. One fan pulls air through the nose and mouth to pass gently around the face. A second fan pushes air out of the costume head through the ears. A battery pack and charger are included to power the cooling system fans.

q Improved Vision

The **Bucklebear** suit head features eyes made of durable one-way Plexiglas, and the nose and mouth openings are covered with painted screens. The result is that users have enhanced visibility for safety and interaction with children.

q Well-Built

The **Bucklebear** suit is assembled to the highest standards and quality inspected for many years of use. It is backed by a 90-day parts and labor warranty.

q Two Sizes

The **Bucklebear** suit is available in two sizes:

- * Small - for users to 5'10" height
- * Large - for users to 6'3" height

Please specify the size you need.
